

CHAPTER: Maglev
AUTHORS: Hamid Yaghoubi
BOOK EDITOR: Xavier Perpinya
STATUS: ACCEPTED

CHAPTER PROPOSAL REVIEW REPORT

July 04, 2011

GENERAL

Chapter title:

It suits the manuscript's content

ORIGINALITY

How significant is the purpose of the study?

Significant. Will substantially help research

METHODS USED

How do you evaluate the primary methods used in research?

Clearly described and satisfactory

KEY RESULTS

Did the key results address the specific questions asked?

Absolutely

LANGUAGE

What is the quality of the language of the text?

Very good

EDITOR'S COMMENT

The work suits very well to the scope of the book. Perhaps, a major description of the railway scenario in which the work is developed should be addressed in the final paper. From the conception of the book, the book should be accessible to students, depicting the state of the art. Then, we believe that preliminary extended introduction reviewing the work framework is required.

Sincerely yours,

Aleksandar Lazinica, CEO
