## CERTIFICATE OF INVITATION

---

May 09, 2011

To Whom it May Concern,

InTech is an Open Access publisher of scientific books and journals. We strive to produce high quality publications that are of benefit to the community of scholars throughout the world. Thus, when selecting authors to contribute to our publications we apply a rigorous set of criteria. InTech selects only experts within a particular scientific field based on:

1. Field of research
2. Publication history - a record of scientific accomplishment documented by contribution to scientific literature or other evidence of scientific accomplishment and
3. Relevance, quality and impact of past publications

After successfully meeting these criteria, Professor Yaghoubi has been invited to participate in the book project under the working title "Railway / Book 1", ISBN 979-953-307-634-7.

Sincerely yours,

Aleksandar Lazinica, CEO
